

Stem to Stern - 57 Narrowboat (Reverse Layout)

£ 58,995

Description

57' Stem to Stern 2006 Narrowboat powered by a Beta Marine 38hp engine. Built as the 2006 Crick Boat Show boat, this reverse layout narrowboat is designed with space in mind. Set up with 2 berths in a full size double, the layout of the boat lends itself to potentially add an additional 2 berths with the use of adding a sofa bed. As she is reverse layout, the double berth in a separate cabin at the bow and double doors open out onto a bow area sheltered by a cratch cover. As you step aboard, generous wide steps lead into a walk-through galley, well appointed with all full size appliances including Oven, hob, fridge, freezer, dryer and more. There is also plenty of stowage in low and high level cupboards. The kitchen leads into the saloon area, both of which are completely open plan, giving a great feel of space and light. Plus there is a very sociable feel to the area. Currently in the saloon are a pair of high quality comfy chairs and foot stools, these are both moveable and allow various use of the saloon space. On the bulkhead is a good size television and also a cd stereo system is installed with speakers throughout. Her walk-through bathroom features a full height walk-in shower, porta-potti toilet and stylish basin and unit. The bathroom is a very generous size yet does not reduce the overall feeling of space throughout the boat. Beyond the bathroom is the forward master bedroom with a full double and again plenty of storage in high and low level cupboards, including a hanging cupboard.
